Photos that help us quote

No need to tidy up first. Show the space as it is, if it is safe to do so.

1 Show each affected room

Take one wide photo from the doorway and one from another safe angle. Include the floor so we can understand access and the amount of material.

2 Show access and larger items

Photograph entrances, stairs, narrow hallways and the removal route. Include furniture, mattresses and appliances you want removed.

3 Point out details that affect the work

Show areas with heavy grease, damage or other concerns from a safe distance. A short written note is enough if a photo is unsafe or uncomfortable.

4 Protect your privacy

Keep people, IDs, mail, financial papers and medication labels out of view. Share photos only when you have permission. Do not move hazardous items.

5 Send photos with your request

Email info@hchinc.net with your name and service address in the subject. Attach a few clear photos at a time. For video or large files, ask the office for its preferred method. Prefer a walkthrough? Call 718-627-5781.

What happens next

The office reviews your request, asks any follow-up questions, and confirms whether photos are enough or an assessment is needed before preparing your quote.
